

Micromodel Rijssen-Holten

Een Lego® micromodel is een bouwwijze waarbij met kleine steentjes en weinig onderdelen toch een herkenbare voorstelling wordt gemaakt. De uitdaging ligt in het creatief gebruiken van de steentjes om complexe details te suggereren met zo min mogelijk onderdelen.

Voor deze Rijssen-Holten Lego® set was dit de perfecte manier om op een kleine schaal het thema “ondernemen” uit te beelden. Met een paar stenen zijn zo verschillende plekken uit de gemeente te herkennen, zoals de Pelmolen, de zomp op de Regge, de Holterberg met de Diepe Hel en de paarse heide, een varken en de dorpskerk van Holten.

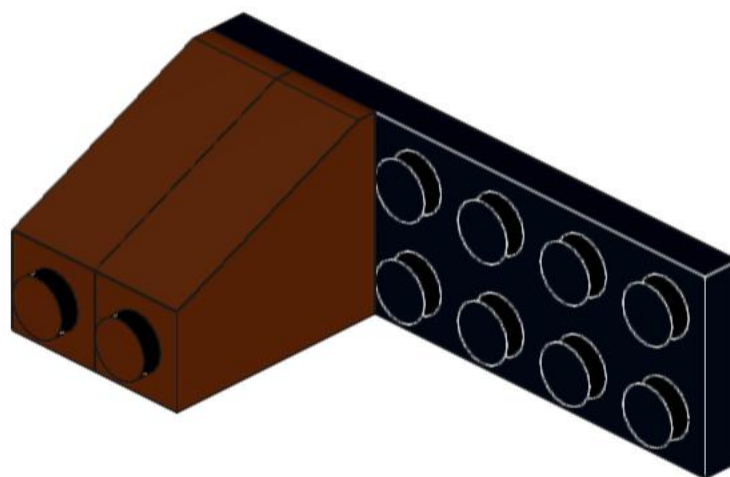

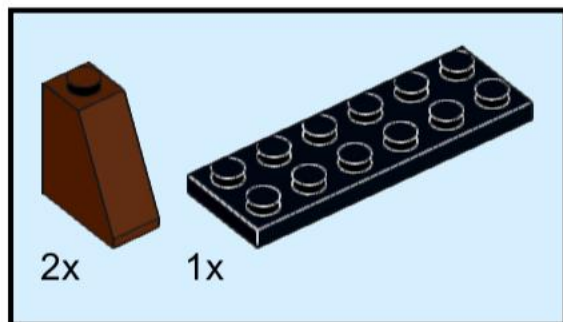

Ik heb met veel plezier deze set ontworpen en samengesteld. Het blijft natuurlijk handwerk, dus mocht er een stukje missen dan sturen we dat graag na.
